

## VDF Boehringer D 480

|                    |                                     |
|--------------------|-------------------------------------|
| conventional lathe | Leit- und<br>Zugspindeldrehmaschine |
|--------------------|-------------------------------------|

|               |                      |
|---------------|----------------------|
| Machine type: | VDF Boehringer D 480 |
|---------------|----------------------|

|       |      |
|-------|------|
| Year: | 1973 |
|-------|------|

Alle Maschinen optional mit

✓ **SERVICE-PAKET**

Abbau - Verladung - Transport - Inbetriebnahme

## SPECIFICATIONS:

---

|                       |     |
|-----------------------|-----|
| Turningdiameter: [mm] | 480 |
|-----------------------|-----|

---

|                     |     |
|---------------------|-----|
| Center height: [mm] | 240 |
|---------------------|-----|

---

|                              |       |
|------------------------------|-------|
| Max. turning length:<br>[mm] | 1.000 |
|------------------------------|-------|

---

|                    |    |
|--------------------|----|
| Bar capacity: [mm] | 62 |
|--------------------|----|

---

---

|                       |              |
|-----------------------|--------------|
| Spindle speeds: [rpm] | 11,2 - 2.240 |
|-----------------------|--------------|

---

|                     |    |
|---------------------|----|
| Spindle power: [kW] | 11 |
|---------------------|----|

---

|                       |                           |
|-----------------------|---------------------------|
| Feeds: (X/Z) [m/min.] | 0,045 - 1,6 / 0,02 - 0,71 |
|-----------------------|---------------------------|

---

---

|                      |    |
|----------------------|----|
| Quill diameter: [mm] | 50 |
|----------------------|----|

---

|                   |     |
|-------------------|-----|
| quill range: [mm] | 200 |
|-------------------|-----|

---

|                |      |
|----------------|------|
| Thread: [Inch] | 2-40 |
|----------------|------|

---

|                     |           |
|---------------------|-----------|
| Metric threads [mm] | 0,2 - 112 |
|---------------------|-----------|

---

---

|                            |    |
|----------------------------|----|
| Power consumption:<br>[KW] | 11 |
|----------------------------|----|

---

|                      |       |
|----------------------|-------|
| Machine weight: [kg] | 2.700 |
|----------------------|-------|

---

|                            |                 |
|----------------------------|-----------------|
| Req. space (LxBxH):<br>[m] | 2,5 x 1,3 x 1,6 |
|----------------------------|-----------------|
