

## Gildemeister GD32-6

tokarka wzdłużna CNC

---

Typ maszyny: Gildemeister GD32-6

---

Sterowanie: GE Fanuc Series 16i-T

---

Rok produkcji: 2006

---

Alle Maschinen optional mit

✓ **SERVICE-PAKET**

Abbau - Verladung - Transport - Inbetriebnahme

## DANE TECHNICZNE:

---

|                            |    |
|----------------------------|----|
| średnica toczenia:<br>[mm] | 33 |
|----------------------------|----|

---

|            |     |
|------------|-----|
| Oś Z: [mm] | 320 |
|------------|-----|

---

|                               |    |
|-------------------------------|----|
| bieg szybki: (X/Z)<br>[m/min] | 30 |
|-------------------------------|----|

---

|                              |  |
|------------------------------|--|
| Max. auswerfen: ca.<br>190mm |  |
|------------------------------|--|

---

---

|                                      |       |
|--------------------------------------|-------|
| maks. prędkość<br>obrotowa: [1/min.] | 8.000 |
|--------------------------------------|-------|

---

|                  |           |
|------------------|-----------|
| moc napędu: [kW] | 5,5 / 7,5 |
|------------------|-----------|

---

---

|                   |     |
|-------------------|-----|
| miejsca narzędzi: | 5+3 |
|-------------------|-----|

---

---

|                                                  |                    |
|--------------------------------------------------|--------------------|
| wymagana przestrzeń<br>(dł. x szer. x wys.): [m] | 3,08 x 1,51 x 1,75 |
|--------------------------------------------------|--------------------|

---

|                      |       |
|----------------------|-------|
| ciężar maszyny: [kg] | 4.200 |
|----------------------|-------|

---

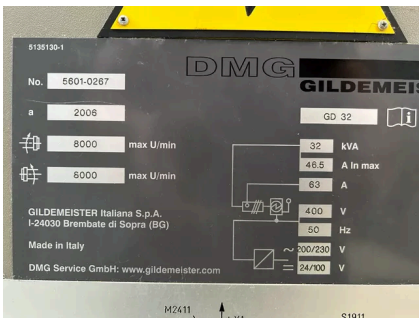

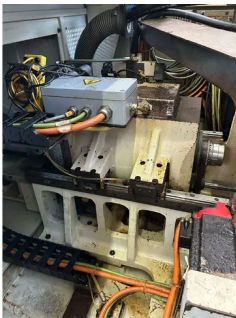

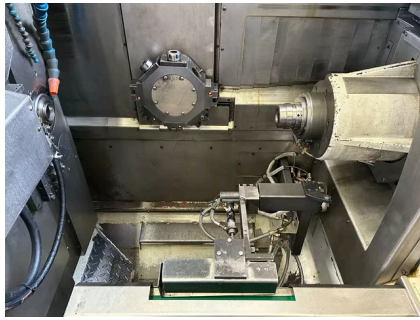

---

## Cechy wyposażenia:

---

|                             |       |
|-----------------------------|-------|
| magazyn podajnika<br>prętów | lemca |
|-----------------------------|-------|

---
